

PRINTER INSTALLATION

Note: The screen may look slightly different depending on your operating system, but the process is still the same.

- 01** Press **Windows + R** simultaneously on your keyboard.
- 02** Type **"\\gwprint01"** in the text field. Then, click on the **OK** button.
- 03** Search for the printer you want to add. The naming convention for each printer is **"PQ[Building Name Abbreviation][Room Number]."** Double click on the printer you would like to install.
- 04** *Optional: Set a printer as a default by clicking on **Printer** and then **Set As Default Printer**. Click on **OK** to confirm the changes to the computer.
